

# **SAP Leonardo**

### Introduction to SAP Leonardo

#### Overview of SAP Leonardo

- o Introduction to SAP Leonardo and Its Components
- o Key Technologies and Innovations: IoT, Machine Learning, Blockchain, Big Data
- o SAP Leonardo Architecture and Deployment Models

## SAP Leonardo IoT (Internet of Things)

### • IoT Basics and Architecture

- o Introduction to IoT and Its Applications
- o IoT Architecture: Devices, Connectivity, and Data Processing
- o IoT Use Cases and Industry Applications
- o Integration with SAP Cloud Platform and S/4HANA

### • IoT Data Management and Analytics

- o Data Collection and Processing from IoT Devices
- o Real-Time Analytics and Visualization
- o Advanced Topics: Predictive Maintenance, Asset Management

### • IoT Solutions and Scenarios

- o Implementing IoT Solutions for Smart Manufacturing
- o IoT for Supply Chain and Logistics Optimization
- o Advanced Use Cases: Smart Cities, Healthcare IoT

## SAP Leonardo Machine Learning

### • Introduction to Machine Learning

- o Overview of Machine Learning and AI Concepts
- o Types of Machine Learning: Supervised, Unsupervised, Reinforcement Learning
- o Integration with SAP Cloud Platform and S/4HANA

## • Building Machine Learning Models

- o Data Preparation and Feature Engineering
- o Model Training and Evaluation
- o Using SAP Leonardo Machine Learning Foundation
- o Advanced Topics: Natural Language Processing, Image Recognition

## Machine Learning Applications

- o Implementing Machine Learning for Predictive Analytics
- o Use Cases: Customer Insights, Fraud Detection, Demand Forecasting
- o Advanced Topics: Custom Model Development and Integration

### SAP Leonardo Blockchain

# • Introduction to Blockchain Technology

- o Basics of Blockchain: Concepts, Structure, and Cryptography
- o Blockchain Networks: Public vs. Private Blockchains
- o Integration with SAP Cloud Platform and S/4HANA

### Blockchain Solutions and Use Cases

- o Building Blockchain Applications with SAP Leonardo
- o Use Cases: Supply Chain Transparency, Smart Contracts, and Provenance Tracking
- o Advanced Topics: Blockchain for Finance, Identity Management

## SAP Leonardo Big Data

• Big Data Fundamentals

Flat No: 506,5th Floor, Nilgiri Block, Aditya Enclave, Ameerpet, Hyd -5000038.

Contact: +91 9032734343, Mail: info@vritsol.com www.vritsol.com

# SAP Leonardo

- Overview of Big Data Technologies and Concepts
- Big Data Architecture and Ecosystem
- o Integration with SAP HANA and SAP Cloud Platform

# **Big Data Management and Analytics**

- o Data Ingestion, Storage, and Processing
- o Real-Time and Batch Processing Techniques
- o Advanced Analytics and Visualization
- o Advanced Topics: Data Lake Architecture, Big Data Integration with SAP Applications

# SAP Leonardo Analytics and Data Intelligence

# **SAP Analytics Cloud (SAC) Integration**

- Overview of SAP Analytics Cloud and Its Capabilities
- Data Connectivity and Integration with SAP Leonardo
- Building Dashboards and Reports
- o Advanced Topics: Predictive Analytics, What-If Analysis

## **Data Intelligence and Data Orchestration**

- o Data Integration and Orchestration with SAP Data Intelligence
- o Data Quality and Governance
- Advanced Topics: Data Fabric, Metadata Management

# SAP Leonardo Design Thinking and Innovation

## **Design Thinking for Innovation**

- o Introduction to Design Thinking Methodology
- o Applying Design Thinking in SAP Leonardo Projects
- o Ideation, Prototyping, and Testing
- o Advanced Topics: Innovation Labs, Customer Co-Creation

### **Implementing Innovations with SAP Leonardo**

- o End-to-End Innovation Process
- o Case Studies: Successful SAP Leonardo Implementations
- Advanced Topics: Scaling Innovations, Change Management

## SAP Leonardo Integration and Development

# Integration with SAP S/4HANA and Other SAP Modules

- o Integrating SAP Leonardo Solutions with Core SAP Applications
- o Advanced Topics: API Management, Event-Driven Architectures

## **Custom Development and Extensions**

- o Developing Custom Applications with SAP Leonardo
- o Extending SAP Leonardo Solutions Using SAP Cloud Platform
- Advanced Topics: SAP Fiori and SAPUI5 for Custom UIs

# Hands-On Projects and Case Studies

#### **Practical Implementations**

- o Real-World Scenarios for IoT, Machine Learning, Blockchain, and Big Data
- o Developing and Deploying SAP Leonardo Solutions
- o Advanced Topics: End-to-End Project Execution and Management

Flat No: 506,5th Floor, Nilgiri Block, Aditya Enclave, Ameerpet, Hyd -5000038.
